Subject: Consent for Access - Water Quality Sampling Upper Animas River

Dear Mr. Taylor,

I am a project manager for the EPA in Denver, Colorado. I am working on a project to collect water quality data from the Upper Animas River. We have identified several locations that we would like to collect surface water and sediment samples from, which are located on several mining claims in which you are listed as an owner. I would like to request consent for access to the following locations:

Location ID	Description	Claim Name/ SN#
A21A	Comet Adit Lower	Clarence 2390
A31	Animas above Niagara	Pavilion 1601
		Specie 1602
A32	Niagara Gulch	Big Cliff 17954
		Lotah 17954
A33	Animas above Eureka	Pavilion 1601

I've attached our request and consent for access form. I have also mailed these forms to the

address listed with the San Juan County assessor's office. Please sign the consent for access form and send back either via email or to the address below. If you have any questions, please feel free to contact me at any time.

Thank You,

Liz
